

GOVERNMENT OF SINDH POWER DEPARTMENT

EXPRESSION OF INTEREST

Expression of Interest for the Supply of 70 MW Power Project on Turn-Key basis at Sindh Industrial Trading Estate, Nooriabad.

The Government of Sindh has decided to Build, Own and Operate Power Plants at various industrial estates of province of Sindh. This underlying objective of this initiative is to promote industrialization in the province and to increase the wellbeing of the residents. The electricity thus produced will be available to the industries uninterrupted and load shedding in SITES will be eliminated. Adequate natural gas has been arranged for the projects.

The first power project will be developed at SITE, Nooriabad and will have a gross capacity of 70 MW. The technology for the project at Nooriabad will be Gas Engine having a gross capacity range of 3-10 MW per gas engine. Interested manufacturers and suppliers of gas engines are encouraged to send their Prequalification documents comprising of corporate experience in providing turnkey services for similar projects, range of product, facilities, manpower, Operations and maintenance services, last three years financial statements and ability to provide financing for the project to the Department of Power, Government of Sindh. The applicants must have a presence in Pakistan, preferably in the province of Sindh.

The EOI alongwith PQ documents must reach the undersigned within 45 days of this publication. The evaluation criteria for selecting the manufacturer/supplier shall be forwarded to the companies within one week of receiving their EOI. Government of Sindh reserves the right to reject any bid without giving reasons.
